

TITLE

A 10-year retrospective review of retinopathy of prematurity screening and treatment in Western Romania

A 6 year review on preseptal and orbital cellulitis in patients under 18 years old and the use of steroids in its management within tertiary centre in Abu Dhabi

A comparative evaluation of simulation training eyes for teaching red reflex and posterior segment examination with direct ophthalmoscopy

A comparative study of two different techniques of intraocular lens implantation in pediatric cataract

A paediatric case of bilateral clinically isolated optic atrophy

A prospective study of the incidence, presentation, and treatment of essential infantile esotropia (EIE) in the United Kingdom: preliminary results

A Retrospective review of family history referrals. How often do we see them and for how long?

Acute Non-Accommodative Esotropia Treated with Botulinum Toxin in Children

Adjustable sutures in the surgical management of myopic esotropia

Adult strabismus quality of life questionnaire: the relationship between angle of deviation and AS-20 score

Amblyopia treatment patterns and outcomes

An audit into the ocular alignment outcomes of adults undergoing adjustable strabismus surgery

An incidental case of Rhabdomyosarcoma in the form of a conjunctival lesion

An interesting case of anisocoria

Anterior segment OCT to evaluate the effectiveness of cycloplegia in children

Appearance related evaluation in pre-operative strabismic adults

Applying a child/young person-centred approach to develop Vision-related Quality of Life (VQoL) and Functional Vision (FV) instruments for children/young people

Botulinum toxin for strabismus following retinal surgery

Botulinum Toxin use in a case of Periodic Alternating Nystagmus

Case report of possible Duane and Brown Syndrome

Case Report: Unusual Aetiology of Persistent Sixth Cranial Nerve Palsy

Cataract Surgery in children with Buphthalmos

Childhood lensectomy is associated with an arrest in foveal development

Clinical measure of the 'slow-to-see' phenomena in children with nystagmus

Clinical Outcomes of Strabismus Surgery 2012-2016 at the Princess Royal University Hospital, Orpington

Clinical profile and treatment outcomes following laser monotherapy and combination therapy with bevacizumab in Paediatric Coats' disease (PCD)

Combining Databases Highlights Ocular morbidity in 4-5 year olds born prematurely in Coventry

Creation of wide field retinal images from narrow field video acquired by an Arclight direct ophthalmoscope

Development of a low cost strabismus surgery simulation model – Face and Content validation

Development of a new classification system for childhood cerebral visual disorders

Development of a new national registration system for childhood visual impairment in Scotland

Development of objective outcome measures for clinical trials in childhood blepharokeratoconjunctivitis – an exploratory observational case-control study

Diabetic Retinopathy in Children: Results from a National Screening Programme

Differences in reading ability are associated with differences in visual perceptual skills in primary school-children

Does overminus treatment of intermittent exotropia cause myopic progression?

Early Experience Of Retinopathy Of Prematurity After Initial Ranibizumab Therapy

Efficacy of Intravitreal Bevacizumab (IVB) in treatment of Type 1 Retinopathy of Prematurity (ROP), in a developing country

Evaluation of a low cost ophthalmoscope (Arclight) for red reflex assessment amongst health care workers in Malawi

Evaluation of the Takagi projection perimeter as a tool to measure normative extraocular muscle excursion

Exploration of psychosocial and economic barriers to spectacle uptake in secondary school children in Attock district, Pakistan

Foveal Morphology in Prematurity using portable Handheld Spectral Domain Optical Coherence Tomography (HH SD-OCT)

Functional (medically unexplained) symptoms masquerading as infective granulomatous hypophysitis

Genetic testing in children requiring surgery for ectopia lentis

Genetic testing in children with ocular features of albinism and normal skin pigmentation.

Global Retinoblastoma Presentation 2017

Hand Held Spectral Domain Optical Coherence Tomography Measurement of Anterior Chamber Angle Development in Preterm and Full-term Children

Hand-Held Spectral Domain Optical Coherence Tomography (HH-SDOCT) Findings in Children with Non-Accidental Injury (NAI)

Identifying consensus in the management of childhood non-infectious uveitis: A national modified Delphi survey

Identifying ophthalmic abnormalities and optimising paediatric ophthalmology screening in non-syndromic craniosynostosis

IgG4-related disease presenting as bilateral lid swelling in a child

Impact of visual disorders in children with brain tumours

Incidence and profile of strabismus in an acute stroke population

Infrared-reflex screening for congenital cataract using a prototype digital imaging camera

Intermittent Distance Exotropia – Unilateral vs Bilateral Surgery: Which is Best?

Introducing a comic-style workbook in order to improve understanding of eye-clinic procedures in paediatric patients and their families

Investigation of Maximum Disparity and Stereopsis

Iris stromal cyst: visual outcome

Is there a value in measuring near as well as distance visual acuity in children undergoing occlusion treatment for amblyopia?

Keratoconus: Can herpes simplex keratitis cause a false positive?

Kestenbaum in the 21st Century – challenges in assessing surgical outcomes – a series of 26 cases

Laser Pointers and Children don't mix: macular injuries turning young eyes old

Long term outcomes of Baerveldt Glaucoma Implant (BGI) in management of refractory paediatric uveitic glaucoma

Longitudinal study of retinopathy of prematurity (ROP) recurrence after intravitreal ranibizumab injection in triplets

Management of full thickness eyelid laceration following forceps assisted delivery

Modified Diagrammatic Recording of the Postoperative Diplopia Test (PDT)

Multidisciplinary Team (MDT) approach to Cystinosis management and the use of multimodal ocular imaging

Myopia increase in London - progression rate similar in children of different ethnic backgrounds and faster in girls

Mystery Esotropia - A Twin Thing

New report of ocular side effect associated with anti-GD2 monoclonal antibody therapy for neuroblastoma

Optic Nerve Head Abnormalities Associated with Congenital Fibrosis of Extraocular Muscles

Optometrist-led Clinics for Juvenile Idiopathic Arthritis: Addenbrookes Community Paediatric Ophthalmology Service

Orbital Complications of Endoscopic sinus surgery: Orthoptic Case report

Orbital Cysts on Prenatal Ultrasound: diagnostic uncertainty in prenatal medicine

Outcomes using a novel algorithm to manage vertical diplopia in thyroid eye disease (TED)

Paediatric Choroidal Neovascular Membrane: Aetiology and treatment

Paediatric conjunctival lesions - interesting cases

Paediatric ptosis is unlikely to be amblyogenic

Patient reported outcome measures for ocular alignment and movement defects - a systematic review

Pentacam Scheimpflug lens densitometry: an objective measure of cataract severity in children

Periosteal Muscle anchoring for large angle incomitant squint

Peripapillary Choroidal Neovascularisation associated with Optic Disc Drusen in A Child treated with Aflibercept

Phenotypic variability of ocular disease in LTBP2 gene mutations

Post enucleation adjuvant treatment reducing tumor recurrence and metastasis in Retinoblastoma with high risk histo-pathological features in a developing country

Potential Paediatric Neuro-ophthalmology Virtual Clinics

Predicting pseudophakic refractive outcomes for children aged under 2 years: Findings from IoLunder2 (UK and Ireland prospective observational cohort study)

Predictors of central nervous system disease in children with uveitis and optic disc swelling: a retrospective study

Primary cataract extraction and IOL implantation in the Uveitic Paediatric Population

Rare cone dystrophy on electrodiagnostic testing in Bardet Biedl Syndrome 5

Reaching a FEVR Pitch – A case series of Familial Exudative Vitreoretinopathy in Northern Ireland.

Recovery of delayed visual maturation

Recurrent 6th Nerve Palsy

Referral refinement in paediatric ophthalmic electrodiagnosis

Relationships between psychosocial outcomes and transition readiness in adolescents and young adults with uveitis

Resolution of Symptomatic Vertical Abnormal Head Posture secondary to Congenital Null Point Nystagmus following Kestenbaum Surgery

Retrobulbar botulinum toxin and oscillopsia

Review of inferior oblique myectomy outcomes

Risk of stroke following cranial nerve palsy

Running time of patching in astigmatic patients Vs non-astigmatic patients

Safety and Efficacy of Corneal Collagen Cross Linking for Keratoconus in the Paediatric Population

Scotts Procedure– Preliminary Proposal for calculating how much surgery to do

Skew deviation preponderance in newly presenting vertical strabismus

Small incision sutureless strabismus surgery in paediatric patients

Surgical Outcome in Constant Esotropia With and Without Accommodative Element

Surgical outcome of early surgery for Large Angle Esotropia

The Blind Spot in Education Health and Care Plans: Is vision being overlooked?

The British Childhood Visual Impairment and Blindness study (BCVIS2): 1 year outcomes

The Challenge of managing patients with macula anomalies

The impact of information and support for people with Nystagmus: A patient and carer questionnaire study

The impact of spectacle adherence and visual acuity on early literacy

The ocular features of Neurofibromatosis Type 2 in childhood

The psychological effects of infantile nystagmus

The success of exercising accommodative facility

The use of the AS20 questionnaire in patients undergoing surgery and orthoptic treatment at Newcastle Eye Centre.

The utilisation of fusional convergence amplitudes for acquired non-accommodative, non-adjustable esotropia surgery.

Time to drop the phenylephrine from the cycloplegia protocol? Time to drop the phenylephrine from the cycloplegia protocol?

Tips for converting to small incision sutureless fornix based squint surgery

Toxin for Thyroid Ophthalmopathy

Transposition surgery experience

Twin lakes

Two are better than one?

UK Paediatric Ocular Trauma Study (POTS) 1 & 2: Developing standardised data collection protocols, and demographics and mechanisms of injury

UK Paediatric Ocular Trauma Study (POTS) 3: Presenting features and initial management of injuries

Understanding children's eye-care: A qualitative study

Unilateral combined recession/resection surgery in children with near-distance disparity

Using Clinical evidence to reverse the decommissioning of adult cosmetic squint surgery

Using the enhanced Medisoft EMR audit suite to audit the outcomes of amblyopia treatment in a cohort of 950 children.

Using the enhanced Medisoft EMR Audit Suite to audit the outcomes of strabismus surgery

Uveitis in children with Juvenile Idiopathic Arthritis in the UK. Preliminary results from the Childhood Arthritis Prospective Study

Visual crowding in congenital nystagmus, sensory deficit or image motion?

Visual functioning in adults with Idiopathic Infantile Nystagmus Syndrome (IINS)

What do children and families affected by childhood uveitis believe to be important to research about the disease?

Written reports of visual status are valued and utilised by parents of children with special educational needs.
